## Major Changes in Local Fuels Taxes Take Effect July 1

The 2018 session of the Virginia General Assembly made major changes to the local fuels tax imposed in Northern Virginia and Hampton Roads. Moving forward, the tax will be assessed on a cents per gallon basis and a floor identical to that in the statewide tax will be established. Finally, the local taxes will be assessed on a cents per gallon basis. The regional

taxes will be reviewed every six months and adjustments made if prices dictate.

We have received the official notice from DMV that effective July 1 thru December 31, 2018 the new rates are:

### Motor Vehicle Fuels Sales Tax (Wholesale Sales Tax) Rates

Gasoline - \$.076 cents per gallon

Diesel - \$.077 cents per gallon

### Statewide Motor Fuels Tax Rates (no changes)

Gasoline - 16.2 cents per gallon

Diesel - 20.2 cents per gallon.

---

## **Tank Wanted**

Looking for a used 8 or 10 thousand gallon storage tank to donate to a local fire department for water storage. They are located in the community of Kinsale, Virginia in Westmoreland County and do not have the necessary water supply to reload their fire trucks. A large storage tank would provide them additional water capacity and allow them to reload their trucks rapidly in an emergency.

Please contact [stan@northupoil.com](mailto:stan@northupoil.com).
