Games of Skill Facing Lottery Pushback/ Legislation Likely in 2020

Earlier this week the General Assembly's money committees met in Richmond. One of the topics of discussion was a reported slowdown in growth in Virginia Lottery revenue. One explanation has been the opening of Colonial Downs' slot machine mini-casinos in Richmond, New Kent and Vinton. The second has been the growth of gaming machines at on and off premise ABC locations across the Commonwealth. While the legality of games of skill versus games of chance continues to be debated, it appears that at least some legislators want to see state oversight and likely a new revenue stream from these machines. We will be monitoring the issue closely and provide you with updated information as it becomes available.
