NORA Extended for 10 Years

Yesterday President Trump signed the Farm Bill, which contains a 10 year authorization of the National Oilheat Research Alliance. For Virginia this means that for the next decade almost \$200,000 annually will be re-invested in consumer and industry education and rebates to incentivize consumers to purchase new high efficiency equipment. Special recognition is due to NORA President John Huber and the PMAA staff for their yeoman work in getting this extension. In a time of hyper partisanship in Washington, DC this accomplishment is even more remarkable. Virginia has been active in the coalition supporting and funding these legislative efforts. We also express our sincere appreciation to Virginia NORA coordinator, Rob Bailey, for his efforts across the Commonwealth to promote the industry.

Merry Christmas and Happy New Year!

We extend our best wishes to all for a wonderful holiday season. Thank you for all of your support in 2018.
