Additional Covid-19 Restrictions to Be Announced

Governor Northam has called a press conference for 2pm today to announce additional Covid-19 restrictions in the Commonwealth. This follows yesterday's reports that had 4,398 positive tests reported - the highest number since statewide reporting began in March. Members should be aware that we have "picked up" that some of the new restrictions may specifically target convenience stores through stepped up enforcement by ABC and the state health department of masking and social distancing requirements. As soon as we have something tangible from the Capitol we will forward it to you later today.
