Storage Tank Program Compliance

The Virginia DEQ has published its latest Storage Tank Program Compliance Manual, which provides guidance to DEQ staff on the policies and procedures for underground storage tank (UST) inspections. This guidance details inspection procedures, technical information regarding UST system components, regulatory and statutory framework and interpretations, instructions for the mobile inspection application, and supporting documentation. Importantly, it also details department policy on spill prevention, leak and corrosion detection, secondary containment and approved methods for operator training. A copy of this comprehensive manual may be [found here](#).

NORA Biodiesel Field Survey

NORA requests your help in distributing a field use of biodiesel survey. The results of this survey will help direct NORA's and the biodiesel industry's efforts regarding the continued use of and increases in biodiesel blending.

Here is a link to the survey.
